## Iduapriem Holds Medical Outreach and Free NHIS Registration Exercise in Host Communities

Health team attending to residents at the Teberebie Community Centre during the medical outreach

As part of efforts to promote good health and wellbeing for all at all ages in line with the Sustainable Development Goals (SDG 3), Iduapriem Mine organized its quarterly community health outreach to provide quality healthcare for its host community residents on Wednesday, 12 October 2022. The outreach was held at the Teberebie Community Centre and brought together residents from surrounding communities in the Mine's catchment area.

A team of doctors, nurses, dentists, optometrists, pharmacists, and laboratory technicians were present to render primary medical care and treatment to over 800 residents. The community residents were offered free medical services ranging from general consultations to laboratory examinations, dental care, drug dispensing, HIV counselling and testing, as well as eye, ear, nose, and throat screening.

The outreach was organized in collaboration with the Municipal Health Directorate of the Ghana Health Service.

Additionally, Iduapriem Mine in partnership with German Development Cooperation (GIZ) organised a free National Health Insurance Scheme (NHIS) registration exercise for 2,500 persons and Tuberculosis (TB) screening exercise for residents in its catchment communities. The programme covered persons below 18 years, above 60 years, pregnant women, and persons with disability.

Some NHIS officials registering persons below 18, above 60 years, pregnant women, and persons with disability.

The community residents were there in their numbers to get their NHIS registration done for free
