Iduapriem Achieves Two Million LTI Free Man Hours on BTSF Project

BTSF Project team celebrating the Two million LTI Free man hours

Iduapriem Mine has achieved a significant milestone of working two-million-man hours without a lost time injury on its Beposo Tailings Storage Facility (BTSF) Project.

Speaking at a brief ceremony to celebrate the achievement, Senior Manager- Processing, Abraham Osei Badu commended employees of WBHOQLC and Jones & Wagner Ghana for their commitment, diligence, and cooperation in achieving the exceptional safety record. He urged the team to keep fostering a workplace environment where safety comes first before anything else.

"Today, we celebrate not just a number, but a collective accomplishment that transcends statistics," said Abraham Osei Badu. "We celebrate the countless lives that have been safeguarded; the families who have been spared the agony of a loved one's injury; all the direct and indirect costs associated with injuries; and the unity and trust that have been forged among our team members."

He also emphasized the need for workers to continue planning and preparing for each activity with the highest level of safety in mind.

"Let's carry the spirit of this accomplishment with us as we move forward, knowing that we have the ability to achieve more on this project and continue to create a workplace where every individual returns home safely and sound at the end of the day," he stressed.

Others, such as the VP Projects, Duran Archery, Jones & Wagner Construction Manager, Thomas Nedft and BTSF Project Manager, Franklin Bless Nordzroh, also took turns to applaud the employees for the outstanding accomplishment and admonished them to continue putting safety first before starting any task.
