AngloGold Ashanti Joins Industry Experts for 2026 WAMPEX

Managing Director of Iduapriem Mine, Daniel Boadi participating in a panel discussion at the 2026 WAMPEX

AngloGold Ashanti participated in the 2026 West Africa Mining and Power Exhibition (WAMPEX) in Accra, joining industry leaders, policymakers, investors, and key stakeholders to advance dialogue on the future of responsible mining, energy, and sustainable development in West Africa. The event was held under the theme, “How can responsible mining empower and accelerate West Africa’s sustainable development?”

As part of AngloGold Ashanti’s participation as Headline Sponsor, the company highlighted its continued commitment to responsible mining, innovation, workforce development, and long-term value creation for our people and host communities.

During the panel discussion on the topic, **“Reskilling Today’s Mining and Energy Workforce for Industry 4.0: From Equipment Operation to Data-Driven Decision-Making”** Managing Director of Iduapriem Mine, Daniel Boadi, emphasized that the future of mining will not be driven by technology alone, but by a workforce equipped to combine practical mining expertise with digital skills. He highlighted Iduapriem Mine’s commitment to developing people who can confidently navigate the era of smart mining, where human judgment, experience, and technology work together to deliver safe, efficient, and sustainable operations.

Managing Director of Obuasi Mine, Samuel Boakye Pobee, shared the AngloGold Ashanti story during the headline sponsor’s presentation session, underscoring the Company’s purpose of mining to empower people and advance society. He highlighted several impactful socio-economic initiatives being implemented across Iduapriem and Obuasi Mines, including the newly commissioned Neonatal Intensive Care Unit (NICU), the Robotics Centre established in both mines, and other interventions aimed at improving livelihoods and creating sustainable opportunities within host communities.

Iduapriem team members also engaged industry players, students, investors, and other stakeholders through an interactive exhibition booth, showcasing its commitment to environmental stewardship, innovation, community development, and sustainable value creation.
